P R E F A C E .

In this edition of the AMERICAN NEWSPAPER DIRECTORY, 13,302 newspapers and periodicals in the United States, the Territories and Canada are reported. This is a net gain of precisely 1,500 during the last twelve months, and exhibits an increase of 5,518 over the aggregate number published in the same area ten years since. Excluding the Territories and Canada, the total for the United States alone exceeds the corresponding total for 1883 by 1,344. The present total for the Territories (455) shows an excess of 131 over the number reported a year ago. While the State of New York still leads all other States with regard to the number of papers issued within its limits (which grew during the year from 1,399 to 1,523), a great general increase has occurred in other quarters. Illinois, for instance, now shows 1,009 papers in place of last year's total of 904; Indiana has increased from 477 to 542; Iowa from 560 to 651, while Missouri issues 604 instead of the 523 reported in 1883. Michigan publishes 540 in lieu of the 474 in existence last year; Florida papers have increased from 59 to 73; Georgia has 201 instead of 191; Ohio now issues 844 instead of 738; Massachusetts, 501 instead of 438, and other States show a ratio of increase more or less in sympathy with that already noted. In fact, there has been an increase in every State but one.

The number of dailies in the United States and Territories has grown from 1,062 to 1,178; including Canada, there are now 1,254. The weeklies in the United States, the Territories and Canada have increased from 9,062 to 9,928; in the United States and Territories alone they have grown from 8,635 to 9,492. A great increase in the number of monthlies is also shown; the total having changed from 1,091 to 1,499. In the number of tri-weeklies there has been a decrease.

EXPLANATIONS.

The population figures are from the census of 1880, or from more recent estimates by resident publishers or postmasters.

Publications bought and circulated mainly by persons and firms advertising therein by means of descriptive articles in the reading columns; or devoted to the (almost) exclusive advertising of any particular person or firm, or the advertising of any certain idea; or established solely as advertising schemes; embracing a class with circulations almost entirely gratuitous; are termed "advertising sheets," and no circulation rating is given.

In cases in which no advertisements are taken for a publication, the circulation rating, being unimportant, has been omitted: and the fact stated thus: "does not insert advertisements."

From Publishers of Newspapers who furnish information upon which the circulation rating may be based, a memorandum is asked of the actual issues for each number of the paper for the preceding three months. Each publisher sending such a report is desired to make it as definite and exact, as to dates and figures, as he would wish to require from a rival publisher,—were a comparison, based upon the two reports, to be instituted between the two papers.

†† means that the Editor of the DIRECTORY at the time of going to press had no certain evidence that the paper so marked had suspended publication, but being unable to secure any late issue, no particulars could be given.

Small engravings of newspaper buildings on solid metal bodies, occupying space of one inch in length or width, and no more, subject to approval on inspection, are inserted with the description of the paper without any charge. Messrs. Crosscup & West, No. 702 Chestnut street, Philadelphia, are good parties to furnish the engravings required, and have made all, or nearly all, which now appear in the book.

The DIRECTORY is reissued annually. The work upon its revision proceeds all the time. Advertisers, Publishers and the public are besought to lend their aid by calling attention to its shortcomings. The book can never be made perfect, but no pains will be spared to sustain the position which it has attained in the good opinion of advertisers and publishers.
